

--34. (amended) Intraocular lens according to claim 33, wherein said reactive compound is a monofunctional agent.

Please cancel claims 40, 41 and 60 and enter the following new claims therefor:

--64. (new) Intraocular lens according to claim 42, wherein the monomers are selected from the group consisting of styrene, acrylic derivatives and alkylacrylic derivatives, and the polymer is PMMA.

--65.(new) A process according to claim 61, wherein the monomers are selected from the group consisting of styrene, acrylic derivatives and alkylacrylic derivatives, and the polymer is PMMA.

REMARKS

All rejections have been considered and are addressed in the amendments set forth above and the remarks which follow in order to overcome all objections and rejections and bringing the application into condition for allowance at this stage of prosecution.

1. Election /Restriction

Claims 44-63 are withdrawn from consideration as being directed to a non elected invention.

Claims 44-63 were deemed directed to an invention which is independent or distinct from the invention originally claimed and claims 44-63 were withdrawn from consideration as being directed to a non-elected invention.
